About Me

I am a dedicated student currently pursuing a degree in Computer Science and Engineering at Daffodil International University. With a solid academic foundation in science and strong decision-making and organizational skills, I thrive in team environments and effectively manage my time. I am passionate about technology and eager to apply my knowledge in practical settings.

Language

- Bangla (Native)
- English: Proficient (Reading, Writing, and Speaking)
- Hindi: Conversational

Education

Bachelor of Science in Computer Science and Engineering

Institution: Daffodil International University
Dates: July 2023 – Present
Expected Graduation: June 2027

Higher Secondary Certificate

Institution: Bangla Bazar Fatema Khanam Degree College
Graduation Year: 2022
Passing Grade: GPA 4.68

Secondary School Certificate

Institution: Lalmohon Govt Model High School
Graduation Year: 2020
Passing Grade: GPA 4.59

Skills

- Programming Languages: [C, C++, Java, Python]
- Web Development: [HTML, CSS, JavaScript, or React]
- Problem Solving: [Algorithms and data structures]
- Tools: [Git, Visual Studio Code, or other tools]

Achievements & Activities

- Participated in Unlock the Algorithm Programming Contest, focusing on searching, sorting, and dynamic programming.
- Active member of [Technical Workshops , DIU Robotics Club , Data Science, IT Club Membership].
- Unlock the Algorithm Programming Contest: Organized and participated in a competitive programming event focusing on advanced topics such as searching algorithms, greedy algorithms, sorting, dynamic programming, and graph algorithms.
- Coding Competitions: Actively participated in various online programming contests on platforms like Codeforces, LeetCode, and HackerRank to enhance problem-solving skills.

Hobbies & Interests

- Competitive Programming: Enjoy solving algorithmic challenges on platforms like Codeforces, LeetCode, and HackerRank.
- Technology Trends: Keeping up with the latest advancements in artificial intelligence, machine learning, and blockchain technology.
- Gaming: Enjoy playing strategy and simulation games to enhance critical thinking and decision-making skills.
- Travel & Exploration: Enjoy exploring new places and learning about diverse cultures and technologies worldwide.

Time management

Effective time management skills

projects

Library Management System

- *Description:* Developed a software application to manage library operations, including book borrowing, returns, and inventory tracking.
- *Technologies Used:* Java, MySQL, Swing Framework
- *Key Features:*
 - User authentication and role management (Admin and Members).
 - Real-time search functionality for books by title, author, or category.
 - Automated due date reminders and fine calculation.

Personal Portfolio Website

- *Description:* Designed and developed a responsive personal portfolio website to showcase academic achievements, projects, and skills.
- *Technologies Used:* HTML, CSS, JavaScript,
- *Key Features:*
 - All device-friendly layout.
 - Contact form integration using PHP.

To-Do List Application

- *Description:* Developed a user-friendly To-Do List application as part of a Data Structure course project. The application efficiently manages and organizes tasks with core data structure implementations.
- *Technologies Used:* Only C Programming
- *Key Features:*
 - *Task Management:* Add, delete, update, and prioritize tasks using a custom-built priority queue.
 - *Real-time Sorting:* Tasks are dynamically sorted by priority and deadlines using heap data structures.
 - *Search Functionality:* Implemented binary search for quickly locating specific tasks.
 - *Responsive Design:* Built a simple yet intuitive GUI for seamless user interaction.
